Instructions for theses and template completion

(delete after template is finished)

Theses should reflect the content of presentation and have a recommended structure: abstract, introduction, main material (objective, methods, results, novelty of a research), figures, summary, references, acknowledgement (at the discretion of authors).

Presentation title (max 100 characters), information about authors and abstract are entered directly under page header of this template (logo and name of the conference). Hereafter the text of theses is entered.

Theses should be at least two and no more than six A4 pages (29.7 × 21 cm, “book size”), include the abstract (max 200 words), text and figures, without frames and columns, Times New Roman (12 pt, single line spacing), width alignment, 1 cm indented paragraph, margins 2.0 × 2.0 × 2.0 × 2.0 cm. Figures and tables must have title; captions (font bold, 12 pt) are located below figures and above tables, respectively. Formulae are typed in the formula editor. When preparing theses, please apply generally recognized terms, units, symbols that are common to the entire text. Abbreviations decrypting follows a first use in the text. All Latin values of physical quantities (*A, I, d, h*, etc.) are typed in italics. Functions marking (β , sin, exp, lim), chemical elements (H₂O), measurements (mW / cm²) have upright (ordinary) font.

*Attention! After filling in, please save the template in doc format
and name the files according to the following sample:*

Author surname_Paper.docx,

In case the author presents two theses, the second file name must end with number 2:

Author surname_Paper2.docx.

**Organizing Committee reserves the right not to consider theses
that do not comply with the abovementioned instructions**
